### Investment objective

The Probus India Equity Fund invests in public companies that are listed in or carry out the majority of their economic activities in India. Its objective is to achieve long-term growth by outperforming the MSCI India 10/40 Net Total Return. The fund has an astute and well balanced methodology as it is divided into three compartments:

- **Benchmark:** value unaware allocation to the main constituents of the benchmark, avoiding stocks expected to underperform.
- **Core:** long term compounders composed of high-quality companies with stable earnings growth, high return on equity and low leverage.
- **Satellite:** stocks with less earnings stability, believed to be misunderstood by the market and that are expected to deliver strong asymmetric returns.

### Investment team

Probus Middle East Limited operates as the investment manager and ensures the smooth flow of operation of the fund. OysterRock, on its side, functions as the investment advisor to the investment manager.

The selection of securities is performed using Probus' screening methodology complemented with OysterRock's deep Indian equity knowledge. Investment committees are regularly scheduled with members of both teams deciding on the allocation. This collaboration method allows for an optimal utilization of resources and expertise.
