Statement confirming that the fund remains a reporting fund at the date at which the report is made available.

At the date of this report being made available to UK investors, the fund remains a reporting fund for UK taxation purposes.

* A fund marked with 'Yes' in the column 'Is the Fund a Bond Fund ?' is a fund which holds more than 60% by market value of its investments in "qualifying investments" (as defined in section 494 of Corporation Tax Act 2009 ("CTA 2009"), broadly being investments which yield a return directly or indirectly in the form of interest). For such funds, distributions received by individual UK Shareholders from the fund will be taxed as interest income. This will be treated as savings income for UK resident individuals and will be subject to UK income tax. Distributions received by corporate UK Shareholders will instead be subject to tax under the loan relationship rules (contained in Chapters 5 and 6 of the CTA 2009), on a fair value accounting basis, and will be subject to UK corporation tax.
